VISTA ONLINE

The Menu

Below is a brief description of each of the main commands in the VISTA Online Menu.

ActiveViewer (NEW!)

An interactive GoogleMap view of your region and churches, includes satellite and aerial photo coverage. Simply click on a church marker for quick summary demographics, all four 10 Facts reports and FirstView. Zoom down to the rooftops for immediate view of churches in their ministry area setting.

Knowledge Server

A powerful and intuitive tool for studying the latest information about the PeopleAreas in your region. You can easily sort information on screen and you're always just a click away from access to FirstView reports, Ministry Area Profiles, and street maps.

PeopleArea Study

This function enables you to view and download free resources from your PeopleArea study such as InfoMaps, Study Guides, SourceBook, etc. Click on PeopleArea Study and read the instructions to get started.

FirstView Maker (NEW!)

This exciting and revolutionary new feature allows VISTA Clients to make custom FirstView Reports in real time. In a few quick steps using our interactive mapping tools you can define a boundary using a Radius, combined ZIP Codes, or even a Polygon, and within a few minutes you'll receive an emailed link to download a PDF of the new custom FirstView Report you made!

FirstView Churches (NEW!)

Click to access an alphabetized list of your churches and immediately download FirstView reports that have been created using a pre-defined radius boundary around each church.

FirstView PeopleAreas

Click on this item for the fastest access to PeopleArea FirstView reports. If you already know a PeopleArea number you would like a FirstView Report for, you can enter that number directly. Or, you can review a list of all of your PeopleAreas and select which FirstView Reports you would like to download from the list.

Link2Lead

View a sortable list of the local churches which have at least one registered User at Link2Lead.com.

Order Products

Order a VISTA Ministry Area Profile or Context study at special VISTA Client pricing.

Percept Team

Do you need assistance with your VISTA resources or have contract related issues? The VISTA Client Team page has phone numbers and email links to the people dedicated to supporting you.

Resource Library

This is where you'll find samples of just about everything Percept makes all in one place. In addition to product samples, there are considerable support materials. Feel free to explore since everything in this section is free!

Administration

We've tried to keep the VISTA2000 site simple and easy to use, but there are a few administrative tasks that can't be avoided. Use this command to view or edit basic information about your Organization as well as to view and maintain your User Accounts.

Other Stuff

Up at the top of the screen, you'll see some other buttons. Below is a brief description of each and what they do.

ActiveArea

You can click here to switch among your ActiveAreas. Keep in mind that initially, you may only have your Primary ActiveArea which most likely is your entire region. Later as you add FocalArea and NeighborArea studies, they can also appear on this list.

Current User

You can click here to view or edit your own User Profile. Give it a try! If your email address changes, this is where you can go to let us know.
